

# The Rio Arriba Community Health Council + 100% Rio Arriba

The **Rio Arriba Health Council** is joining 100% New Mexico and the counties of San Miguel, Catron, Otero, San Juan, Taos, McKinley, Socorro, Lincoln, Dona Ana, Mora, Guadalupe, Chaves, Roosevelt, and Curry in finally solving the unsolvable: creating change on a countywide level to ensure 100% of our residents survive and thrive.

**Rio Arriba is 100% IN!**

**We're committed to ensuring that the 10 services shown to empower children, students and families are accessible to all.**

## **5 SERVICES FOR SURVIVING:**

Medical and dental care  
Behavioral health care  
Housing security programs  
Food security programs  
Transportation to vital services

## **5 SERVICES FOR THRIVING:**

Parent supports  
Early childhood education  
Community schools  
Youth mentor programs  
Job training

*We focus on these ten service sectors, identify gaps in vital service areas and address them through a process of assessing, planning, action and evaluation. The ten action teams collaborate with all service providers in the ten "surviving" and "thriving" service areas to create a seamless system of accessible care and empowerment.*

**We are taking on our biggest challenges and their costly health and education consequences by using countywide collaboration, data, technology and communication to strengthen our capacity to make measurable and meaningful change.**

**Will you join us?**
